Pool Testing

- Spa Bromine Tablets – 1kg
- Spa Shock – 1kg
- Triple Action Chlorine – 2kg/10kg
- UV Shield – 2kg
- Xtreme Shock – 2kg

We also do onsite testing for your pool water. The 4 main tests which are performed are the pH, chlorine, total alkalinity and calcium hardness levels. With a sample of your pool water, we are able to identify what problems are happening and are able to give you the right chemicals to fix it.

Our ranges are constantly changing with new products coming in all the time.
